

WAW

KOO STUDIO

Es un sofá que lleva integrados los últimos conceptos de domótica y ergonomía en la experiencia de uso. Así carece de controles para las posiciones porque el sofá es en sí mismo el control. Él mismo se comporta como un receptor inteligente de audio y ofrece la posibilidad de gestionarlo de diferentes formas.

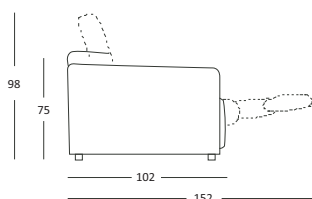

*This sofa incorporate in its structure the new domotic and ergonomic concepts for furniture use, it has a position control and manage it itself. It acts as a smart audio receptor and give the possibility to manage it in different ways.*
